

Excellent Options Package (A La Carte Options)

Many of our clients don't want or need everything in the full-service package offerings. Some will want our assistance with only specific aspects of the event or will want to add only a few additional services to a simple package. This can include anything we do as a full-service option -- assisting with choosing vendors, menu selection, planning décor or stationery, day-of coordination, etc. ~ just focusing on a few of your needs.

The cost will depend on how much time you require from us to help with these specific events or services but it will be less costly than the full-service option. We offer this option because we want to make it as budget friendly as possible for you.

We will establish your needs and come up with something that can fit nicely into your overall budget.
